Rules of

EFC Cadets Circuit competitions

Version October 2018

Elaborated by EFC Sport Director Regional

Principally FIE Technical and Organisational rules for competitions are to be respected. However, some derogation from these rules was adopted for the purpose of EFC Cadets Circuit competitions.

- 1) **Formula of competitions: the principle of flexibility applies as follows: 3 possible formulas of competitions are to be chosen by the organisers.**
 - a) **Two rounds with pools followed by direct elimination table with “repechage” from T-32**
 - b) **One round with pools followed by direct elimination table with “repechage” from T-32**
 - c) **FIE JWC formula, i.e. one round with pools followed by direct elimination table without repechage**
 - d) **For the formula under a) it is valid that the ranking for direct elimination table will be created counting results of both rounds together. Also fencers qualified from second round should be calculated adding results of both rounds.**
 - e) **From the round preceding DE table at least 20% and maximum 25% of participants should be eliminated.**

In this context the organisers in a moment when the allocation of competitions of EFC Circuit will be agreed by EFC Executive Committee, have to present not later than 3 months before date of concerned tournament Invitation including type of formula chosen for their competition.

Besides rules cited above, EFC Comex at its meeting adopted following complementary rules:

- f) Pools composition must be published day before start of competitions. In case of no show up on day of competitions FIE rules for possible arrangement of concerned pools will apply. **Note: the entries are closed at 12:00 on the day before competition and organisers should download the most recent xml entries file for publishing pools by 16:00 of the same day.****
- g) First round in pools must run in maximum of two flights**
- h) If the number of participants is exceeding 100, only one individual competition per day can be organised, possibly seconded by one team event. An exception can be awarded by EFC Sport Director upon demand of organiser who will give a guarantee of good running of competitions based on presented relevant technical conditions (number of pistes in context of expected number of participants), as well as availability of sufficient number of referees for given number of pistes**
- i) If the number of participants in one event is exceeding 150 in one day, only FIE JWC formula for competitions can be used.**
- j) The organisers must mandatory send short report and photos from tournament within 2 days after competitions**
- k) On line live results from competitions are mandatory to be ensured by organizers**
- l) Weapon control should be held focused on security aspects defined by EFC SEMI commission as follows:**

The below table summarizes requirements, for full details please refer to the FIE-rules.
